

**Request for Proposals:
Company Builder Focusing on Biotechnology Support Program
Uruguay Innovation Hub
Evaluation Closing Report**

1. Background

On July 17, 2023, through Decree 216/023, the implementation of the Uruguay Innovation Hub program was approved. This is a national public-private and interinstitutional initiative aimed at promoting projects in the fields of science, technology, and innovation. The goal is to propel the country towards a knowledge-based economy and society, establishing itself as a world-class innovation center that attracts international investments. The program aims to increase the country's potential economic growth rate and generate quality employment opportunities for its residents.

The Program operates within ANII, which is responsible for its administrative management. The Program has its own governance and management structure. The political and strategic direction of the program is entrusted to a four-member Steering Committee, composed of a representative from the Ministry of Industry, Energy, and Mining (who will chair it), a representative from the Ministry of Education and Culture, a representative from the Ministry of Economy and Finance, and a representative from the Office of Planning and Budget.

In accordance with Decree 216/023, one of the instruments through which it will be developed is the Company Building Program. For this purpose, the "Company Building focused on Biotechnology" instrument was designed to generate the conditions to carry out a company building program in Uruguay focused on biotechnology ventures, with the ultimate goal of supporting and promoting the creation of a greater number of ventures related to the field of biotechnology.

2. Request for Proposals Results

The call remained open from Monday 13th November 2023 at 2pm to Tuesday 5th March 2024 at 2pm. At the close of the call, a total of 6 proposals were submitted.

3. Outcomes of the Evaluation Process

After the technical evaluation, the CES (Evaluation and Monitoring Committee) recommends to the UIH Steering Committee the selection of the following proposal:

Proposal Code	Project Title	Applicant Organization	Other Participating Institutions
CB_X_2023_1_179676	GRIDX - ATGen biotech company builder & accelerator	ATGen	OLONIR ZURALEY GRID EXPONENTIAL SA

Below is the list of the 5 proposals that were not selected on this occasion (sequentially ordered by project code):

Proposal Code	Project Title	Applicant Organization	Other Participating Institutions
CB_X_2023_1_179647	LAB+ VENTURES FUND L.P.	Institut Pasteur de Montevideo	Lab+ Ventures Fund L.P. FICUS
CB_X_2023_1_180093	WBC Ventures - Biotech venture builder development in Uruguay: leveraging on the Brazilian experience	Associação Wylinka	Fundação Biominas Caos Focado
